

## NOI BAI INTERNATIONAL AIRPORT COMMITMENT TO GREENHOUSE GAS EMISSIONS REDUCTION

Noi Bai International Airport (NIA), operated by Airports Corporation of Vietnam (ACV), is committed to responsible and sustainable airport operations. We recognize that our airport activities and value chain generate greenhouse gas (GHG) emissions and may impact the surrounding environment and communities.

In alignment with the Airport Carbon Accreditation (ACA) programme and Vietnam's national climate commitments, NIA pledges to:

### **Compliance & Alignment**

- Comply with the environmental protection laws and regulations of Vietnam.
- Undertake actions in alignment with the targets of the Paris Agreement and Vietnam's Nationally Determined Contribution (NDC).

### **Carbon Footprint Monitoring**

- Accurately calculate and report annual greenhouse gas emissions for Scope 1 and Scope 2 in compliance with ACA requirements, ISO 14064-1, and the GHG Protocol.
- Commit to independent verification of the greenhouse gas inventory in accordance with applicable standards.

### **Energy & Resource Efficiency**

- Promote energy-saving initiatives and integrate renewable energy where possible.
- Improve efficiency in cooling, lighting, and ground support operations.

### **Stakeholder Awareness**

- Communicate our commitment to staff, tenants, service providers, and passengers.
- Encourage shared responsibility for reducing greenhouse gas emissions.

This commitment is issued as official evidence of Noi Bai International Airport's efforts in carbon management and climate responsibility.

Ha Noi, 08<sup>th</sup> May 2026,

Approved

**Mr. To Tu Ha**  
Airport Director
